NON-COMPLIANT APPEAL BRIEF

A review of Appellant's Appeal Brief filed 4 October 2006, appealing from the final rejection of 27 February 2006, has revealed that the application is not ready for an Examiners Answer. Accordingly, this Notice of Defective Appeal Brief is being sent to the Appellant.

The matters requiring attention prior to and Examiners Answer are identified below. It is respectfully requested that, in preparing responses, Appellant review all materials carefully for format, content and factual accuracy.

The Appeal will be dismissed if Appellant does not timely file an amended brief, or files an amended brief that does not comply with 37 CFR 41.

Page 3 contains a Grouping of Claims, which is no longer used.

(v) Summary of claimed subject matter.

A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

(vii) Argument.

The contentions of appellant with respect to each ground of rejection presented for review in paragraph (c)(1)(vi) of this section, and the basis therefor, with citations of the statutes, regulations, authorities, and parts of the record relied on. Any arguments or authorities not included in the brief or a reply brief filed pursuant to § 41.41 will be refused consideration by the Board, unless good cause is shown. Each ground of rejection must be treated under a separate heading. For each ground of rejection applying to two or more claims, the claims may be argued separately or as a group. When multiple claims subject to the same ground of rejection are argued as a group by appellant, the Board may select a single claim from the group of claims that are argued together to decide the appeal with respect to the group of claims as to the ground of rejection on the basis of the selected claim alone. Notwithstanding any other provision of this paragraph, the failure of appellant to separately argue claims

Art Unit: 3625

which appellant has grouped together shall constitute a waiver of any argument that the Board must consider the patentability of any grouped claim separately. Any claim argued separately should be placed under a subheading identifying the claim by number. Claims argued as a group should be placed under a subheading identifying the claims by number. A statement which merely points out what a claim recites will not be considered an argument for separate patentability of the claim.

Conclusion

Appellant is required to comply with provisions of 37 CFR 41.37(c). To avoid dismissal of the appeal, Appellant must comply with the provisions of 37 CFR 41.37(c) within ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing of this communication. Extensions of time may be granted under 37 CFR 1.136.

A substitute brief must comply with 37 CFR § 41.37(c). For more information on the Rules of Practice before the BPAI (effective 13 September 2004), see <http://www.uspto.gov/web/offices/dcom/bpai/fr2004/moreinfo.html>
